MUNICIPAL

The Municipal Council has resolved to carry out a town survery and to meet the cost on that account The Executive Engineer Town Improvement and Sanitary Division should in consultation with Mr Krumbiegel prepare a suitable programme of town improvement and advice the Municipality

The following points require early attention -

1 A satisfactory system of drainage

2 Laying out a few open areas to serve as lung spaces by the demolition of dilapidated walls and acquisition of some bits of private land if necessary

3 A suitable site has to be selected for Town Hall which the Municipality are anxious to build Mr Krumbiegel may be asked to do this The plans already prepared for the building require some alterations and Mr Krumbiegel has been requested to revise it suitably

4 The surroundings of the important temple of Sri Venugopalaswamy should be maintained in a tidy condition

5 The fort wall is in good condition but there is considerable tree growth on it which will in course of time damage the wall Steps should be taken to remove such tree growth as fast as possible

6 A Musafirkhana near the Railway Station is an urgent necessity for the town A suitable site has to be selected for locating the building

In this connection the people complain that the balance of Rs 22 000 which was at the disposal of the late Taluk Board was transferred to the District Board and they now want at least a portion of this money to be given back to them for constructing the Musafirkhana The President of the District Board stated that it has been agreed to - build a Musafirkhana at this place Early action has to be taken in this respect

7 The town has no name board on the main road A reinforced concrete name board should be fixed early

8 The Mahomadans of the place are anxious that the garden known as Khas Bagh" now in private holding should be acquired and given to them for the formation of a park It would appear that this garden was first formed by Hyder It is doubtful if the property which has been for a long time in private occupancy can be acquired now except at a very heavy cost The question may however be examined

MISCELLANEOUS

1 The people wanted the newly established toll-bar at Avtihalli to be abolished They were informed that the whole question of toll gates was under examination and that the retention or abolition of this toll-gate would also be duly considered

Letter dated 26th March 1929 from the President, Municipal Council, Devanhalli

---

I and the other members of the Navaratna family who own the Khas Bagh attach high sentimental value to this property, as it is hallowed by associations connected with our illustrious ancestors It is not possible to assess a money value on sacred tradition and to us this garden -- symbolises reverence for the past and hope for the future of our family e cannot part with it without violence to our sense of what is due to our forbears as well as to our posterity

Please place this humble representation before Government and my earnest prayer that some other suitable site might be chosen for the projected Municipal Garden
